

OCCIDENTAL'S HSE AND SUSTAINABILITY PRINCIPLES

- Design and conduct safe, reliable and sustainable operations that promote worker and public health and safety, product stewardship and environmental quality.
- Respect the laws and values of communities where we operate and participate constructively in legislative and regulatory development.
- Conserve natural resources, including biodiversity, wildlife, habitat, water and energy, and manage resources responsibly.
- Advance the circular economy through waste minimization, reuse and recycling and extending the productive lives of our property, plants and infrastructure.
- Evaluate and mitigate potential risks and impacts to people and the environment.
- Pursue our ambitious goals of net-zero greenhouse gas emissions in our operations and products to further the goals of the Paris Agreement.
- Report on our performance and engage with shareholders and other stakeholders to enhance HSE and sustainability programs.
- Collaborate with host communities to contribute to their vitality in the transition to a net-zero future.
- Provide innovative products, services and solutions to help host governments, partners, suppliers and customers address global challenges, achieve net-zero goals, and advance the U.N. Sustainable Development Goals.
