TEXAS FAST FACTS

PERMIAN BASIN LEADERSHIP

Oxy is the largest acreage holder and a leading producer in the Permian Basin, with assets concentrated in West Texas and southeast New Mexico.
**Unique Permian Portfolio**
Oxy's combined Permian Basin portfolio of unconventional and conventional acreage differentiates us from our competitors. The key elements of our onshore strategy are to leverage our subsurface technical skills, unconventional shale development expertise and carbon dioxide enhanced oil recovery position and capability.

**Permian Takeaway**
Oxy's midstream and marketing segment supports our upstream operations in the Permian Basin, allowing us to operate an integrated business from point of production to point of sale.

**OxyChem**
OxyChem has a top tier position both domestically and globally on all the products that it manufactures and markets. OxyChem has seven plants in Texas, located in Houston, Ingleside and Dallas.

**Top Safety Performance**
Safety is an integral part of Oxy's company culture. We take particular pride in Oxy's safety record, which is exemplary not only in the oil and gas and chemicals industries, but compared to any industry sector.

**Training Excellence**
Our Midland Technical Training Center provides employees and contractors a real-world training environment, driving operational excellence, collaboration and safe work practices.

**Oxy Low Carbon Ventures**
Our subsidiary Oxy Low Carbon Ventures is developing carbon capture, utilization and storage projects to remove human-made CO₂ from the air to create lower carbon oil and other less carbon-intensive products. We offer practical solutions industries can use to decarbonize—including CO₂ sequestration and carbon management advisory services.

**Low-Carbon Leadership**
With decades of experience in large-scale CO₂ transportation, use and storage for EOR, we are applying our carbon management expertise to advance low-carbon initiatives that will sustainably enhance our business. Oxy is focused on decreasing our total carbon footprint and helping others achieve the same goal.

**Pathway to Net Zero**
Oxy, leveraging its carbon management and storage expertise, expanded its vision for a low-carbon future by setting a target to achieve net-zero emissions with our operations before 2040 and an ambition to achieve net-zero emissions associated with the use of our products before 2050.

**Environmental Stewardship**
Oxy is an inaugural partner in the Pecos Watershed Conservation Initiative, a proactive, landscape-based approach to management of Permian Basin species and habitats.

**Zero Routine Flaring Initiative Member**
Oxy was the first U.S. oil and gas company to endorse the World Bank’s “Zero Routine Flaring by 2030” initiative to reduce greenhouse gas (GHG) emissions. Our support of the program is part of the company’s global commitment to reduce GHG emissions in our operations and more efficiently use valuable methane resources.

**Technology and Data Analytics**
Industry-leading engineering and the applied use of technology and data analytics are improving efficiency, reducing costs and driving performance, positioning Oxy for long-term success. Our proprietary Oxy Drilling Dynamics technology is helping drive down costs by reducing drilling days, preventing tool failures and improving precision landing.

**Partner of Choice®**
Oxy is committed to operating responsibly; providing safe, healthy and secure workplaces; protecting the environment; maintaining high ethical standards; upholding and promoting human rights; benefiting our stakeholders; and respecting cultural norms and values, everywhere we operate.
