PRESS RELEASE

Occidental Announces 4th Quarter 2024 Results

- Progressed on Occidental's deleveraging priorities:
 - Completed our near-term debt repayment target of \$4.5 billion
 - Announced additional \$1.2 billion of divestitures in the first quarter of 2025
- Increased quarterly dividend by 9% to \$0.24 per share, payable April 15, 2025, to stockholders of record as of March 10, 2025
- Strong operational performance drove operating cash flow of \$3.6 billion and operating cash flow before working capital of \$3.1 billion
- Capital spending of \$1.8 billion and contributions from noncontrolling interest of \$54 million resulted in quarterly free cash flow before working capital of \$1.4 billion
- Total company production of 1,463 Mboed exceeded the mid-point of guidance by 13 Mboed
- Midstream and marketing and Chemical segments exceeded income guidance
- Worldwide year-end proved reserves of 4.6 billion BOE with reserves replacement all-in of 230% and reserves replacement - organic of 112%

HOUSTON — February 18, 2025 — Occidental (NYSE: OXY) today announced a net loss attributable to common stockholders of \$297 million, or \$0.32 per diluted share, and adjusted income attributable to common stockholders of \$792 million, or \$0.80 per diluted share, for the fourth quarter of 2024. Fourth quarter of 2024 after-tax items affecting comparability of \$1.1 billion mainly comprised of booking a long-term environmental liability increase based on a recent federal court ruling. Occidental has appealed the ruling and will seek cost recovery from all potentially responsible parties. It is expected that the cash outlay for remediation costs will be expended over 10 to 20 years, or more.

"Our teams continued to demonstrate industry-leading performance during the fourth quarter of 2024, outperforming guidance across all three segments and delivering record U.S. production while improving our capital efficiency," said President and Chief Executive Officer Vicki Hollub. "Our operational excellence translated to another quarter of strong financial results, highlighted by our fourth quarter operating cash flow, enabling us to achieve our near-term debt repayment target of \$4.5 billion. Additional key differentiators for Occidental are our 2024 all-in reserve replacement of 230% and organic reserves replacement of 112%, which are indicators of our long-term sustainability."

QUARTERLY RESULTS

Oil and Gas

Oil and gas pre-tax income for the fourth quarter of 2024 was \$1.2 billion, compared to pre-tax income of \$1.2 billion for the third quarter of 2024. For the fourth quarter of 2024, average WTI and Brent marker prices were \$70.27 per barrel and \$73.97 per barrel, respectively. Average worldwide realized crude oil prices decreased by 7% from the prior quarter to \$69.73 per barrel. Average worldwide realized natural gas liquids prices increased by 6% from the prior quarter to \$21.80 per barrel. Average domestic realized gas prices increased by 215% from the prior quarter to \$1.26 per thousand cubic feet (Mcf).

Total average global production of 1,463 thousand barrels of oil equivalent per day (Mboed) for the fourth quarter of 2024 exceeded the mid-point of guidance by 13 Mboed, led by Permian and Rockies & Other Domestic, while Gulf of America and International average daily production both came within guidance.

Oil and Gas Proved Reserves

As of December 31, 2024, Occidental's worldwide proved reserves totaled 4.6 billion barrels of oil equivalent (BOE), compared to 4.0 billion BOE for the same period in the prior year. Proved reserve additions were mainly driven by purchases of 623 million BOE, primarily from the CrownRock Acquisition, extensions and discoveries of 326 million BOE, mostly in the Permian Basin, and positive revisions associated with infill development projects of 112 million BOE, primarily in the DJ and Permian Basins. The 2024 Reserves Replacement - All-In was 230% and the three-year average Reserves Replacement - Organic was 112% and the three-year average Reserves Replacement - Organic was 137%.

OxyChem

OxyChem pre-tax income exceeded guidance at \$270 million for the fourth quarter of 2024. The decrease in fourth quarter OxyChem income, compared to third quarter of 2024 income, resulted primarily from lower realized polyvinyl chloride (PVC) pricing and lower seasonal fourth quarter demand across most product lines. This decrease was partially offset by advantageous commercial thresholds triggered in the fourth quarter.

Midstream and Marketing

Midstream and marketing pre-tax results for the fourth quarter of 2024 reflected a loss of \$134 million, which included net derivative losses of \$88 million. WES equity method investment income for the fourth quarter was \$142 million.

Supplemental Non-GAAP Measures

This press release refers to adjusted income (loss), operating cash flow before working capital, capital expenditures, net of noncontrolling interest, free cash flow before working capital and adjusted selling, general and administrative (SG&A), other operating and non-operating expenses, which are

supplemental measures not calculated in accordance with generally accepted accounting principles in the United States (GAAP). These non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation or as an alternative to the comparable GAAP financial measures. Definitions of adjusted income (loss) and a reconciliation to net income (loss), along with operating cash flow from continuing operations before working capital, capital expenditures, net of noncontrolling interest, free cash flow before working capital and adjusted SG&A, other operating and non-operating expenses and a reconciliation to the comparable GAAP financial measures, are included in the financial schedules of this press release. Occidental's definition of adjusted income (loss), operating cash flow from continuing operations before working capital, capital expenditures, net of noncontrolling interest, free cash flow before working capital and adjusted SG&A, other operating and non-operating expenses may differ from similarly titled measures provided by other companies in our industry and as a result may not be comparable.

This press release also refers to F&D Costs and reserves replacement ratio, which are non-GAAP measures that Occidental believes are widely used in our industry, as well as by analysts and investors, to measure and evaluate the cost of replacing annual production and adding proved reserves. Occidental's definitions of these non-GAAP measures may differ from similarly titled measures provided by other companies and as a result may not be comparable. F&D Costs - All-In is calculated by dividing total costs incurred for the year as defined by GAAP by the sum of proved reserves revisions, improved recovery, extensions and discoveries and purchases of minerals in place for the year. F&D Costs - Organic excludes from F&D Costs - All-In both the property acquisition costs and purchases of minerals in place, and F&D Costs - Program Additions further excludes price and other revisions that are not infills. Reserves Replacement - All-In is calculated by dividing the sum of proved reserves revisions, improved recovery, extensions and discoveries and purchases and sales of minerals in place for the year by current year production. Reserves Replacement - Organic excludes from Reserves Replacement - All-In purchases and sales of minerals in place for the year. Reserves Replacement - Program Additions further excludes price and other revisions that are not infills.

About Occidental

Occidental is an international energy company with assets primarily in the United States, the Middle East and North Africa. We are one of the largest oil and gas producers in the U.S., including a leading producer in the Permian and DJ basins, and offshore Gulf of America. Our midstream and marketing segment provides flow assurance and maximizes the value of our oil and gas, and includes our Oxy Low Carbon Ventures subsidiary, which is advancing leading-edge technologies and business solutions that economically grow our business while reducing emissions. Our chemical subsidiary OxyChem manufactures the building blocks for life-enhancing products. We are dedicated to using our global leadership in carbon management to advance a lower-carbon world. Visit oxy.com for more information.

Forward-Looking Statements

This press release contains forward-looking statements within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including, but not limited to,

statements about Occidental's expectations, beliefs, plans or forecasts. All statements other than statements of historical fact are "forward-looking statements" for purposes of federal and state securities laws, including, but not limited to: any projections of earnings, revenue or other financial items or future financial position or sources of financing; any statements of the plans, strategies and objectives of management for future operations or business strategy; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Words such as "estimate," "project," "predict," "will," "would," "should," "could," "may," "might," "anticipate," "plan," "intend," "believe," "expect," "aim," "goal," "target," "objective," "commit," "advance," "likely" or similar expressions that convey the prospective nature of events or outcomes are generally indicative of forward-looking statements. You should not place undue reliance on these forward-looking statements, which speak only as of the date of this press release unless an earlier date is specified. Unless legally required, Occidental does not undertake any obligation to update, modify or withdraw any forward-looking statements as a result of new information, future events or otherwise.

Forward-looking statements involve estimates, expectations, projections, goals, forecasts, assumptions, risks and uncertainties. Actual outcomes or results may differ from anticipated results, sometimes materially. Factors that could cause results to differ from those projected or assumed in any forward-looking statement include, but are not limited to: general economic conditions, including slowdowns and recessions, domestically or internationally; Occidental's indebtedness and other payment obligations, including the need to generate sufficient cash flows to fund operations; Occidental's ability to successfully monetize select assets and repay or refinance debt and the impact of changes in Occidental's credit ratings or future increases in interest rates; assumptions about energy markets; global and local commodity and commodity-futures pricing fluctuations and volatility; supply and demand considerations for, and the prices of, Occidental's products and services; actions by the Organization of the Petroleum Exporting Countries (OPEC) and non-OPEC oil producing countries; results from operations and competitive conditions; future impairments of Occidental's proved and unproved oil and gas properties or equity investments, or write-downs of productive assets, causing charges to earnings; unexpected changes in costs; inflation, its impact on markets and economic activity and related monetary policy actions by governments in response to inflation; availability of capital resources, levels of capital expenditures and contractual obligations; the regulatory approval environment, including Occidental's ability to timely obtain or maintain permits or other government approvals, including those necessary for drilling and/or development projects; Occidental's ability to successfully complete, or any material delay of, field developments, expansion projects, capital expenditures, efficiency projects, acquisitions or divestitures; risks associated with acquisitions, mergers and joint ventures, such as difficulties integrating businesses, uncertainty associated with financial projections or projected synergies, restructuring, increased costs and adverse tax consequences; uncertainties and liabilities associated with acquired and divested properties and businesses; uncertainties about the estimated quantities of oil, NGL and natural gas reserves; lower-than-expected production from development projects or acquisitions; Occidental's ability to realize the anticipated benefits from prior or future streamlining actions to reduce fixed costs, simplify or improve processes and improve Occidental's competitiveness; exploration, drilling and other operational risks; disruptions to, capacity constraints in, or other limitations on the pipeline systems that deliver Occidental's oil and natural gas and other processing and transportation

considerations; volatility in the securities, capital or credit markets, including capital market disruptions and instability of financial institutions; government actions (including geopolitical, trade, tariff and regulatory uncertainties), war (including the Russia-Ukraine war and conflicts in the Middle East) and political conditions and events; health, safety and environmental (HSE) risks, costs and liability under existing or future federal, regional, state, provincial, tribal, local and international HSE laws, regulations and litigation (including related to climate change or remedial actions or assessments); legislative or regulatory changes, including changes relating to hydraulic fracturing or other oil and natural gas operations, retroactive royalty or production tax regimes, and deep-water and onshore drilling and permitting regulations; Occidental's ability to recognize intended benefits from its business strategies and initiatives, such as Occidental's low-carbon ventures businesses or announced greenhouse gas emissions reduction targets or net-zero goals; potential liability resulting from pending or future litigation, government investigations and other proceedings; disruption or interruption of production or manufacturing or facility damage due to accidents, chemical releases, labor unrest, weather, power outages, natural disasters, cyber-attacks, terrorist acts or insurgent activity; the scope and duration of global or regional health pandemics or epidemics, and actions taken by government authorities and other third parties in connection therewith; the creditworthiness and performance of Occidental's counterparties, including financial institutions, operating partners and other parties; failure of risk management; Occidental's ability to retain and hire key personnel; supply, transportation and labor constraints; reorganization or restructuring of Occidental's operations; changes in state, federal or international tax rates; and actions by third parties that are beyond Occidental's control.

Additional information concerning these and other factors that may cause Occidental's results of operations and financial position to differ from expectations can be found in Occidental's other filings with the U.S. Securities and Exchange Commission, including Occidental's Annual Report on Form 10-K for the year ended December 31, 2024, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

⁽a) Non-GAAP Measure. Adjusted income is a non-GAAP measure. Occidental defines adjusted income as net income excluding the effects of significant transactions and events that affect earnings but vary widely and unpredictably in nature, timing and amount. These events may recur, even across successive reporting periods. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported net income is considered representative of management's performance over the long term, and adjusted income is not considered to be an alternative to net income reported in accordance with GAAP.

(a) Non-GAAP Measure. Adjusted income is a non-GAAP measure. Occidental defines adjusted income as net income excluding the effects of significant transactions and events that affect earnings but vary widely and unpredictably in nature, timing and amount. These events may recur, even across successive reporting periods. This non-GAAP measure is not meant to disassociate those items from management's performance, but rather is meant to provide useful information to investors interested in comparing Occidental's earnings performance between periods. Reported net income is considered representative of management's performance over the long term, and adjusted income is not considered to be an alternative to net income reported in accordance with GAAP. The reported EPS (GAAP) calculations do not include dilutive effect of potential issuance of common stocks as their effect is anti-dilutive since Occidental generated net losses from continuing operations.

⁽a) Non-GAAP Measures. Adjusted SG&A, other operating and non-operating expenses is a non-GAAP measure. Occidental defines adjusted SG&A, other operating and non-operating expenses as the sum of selling, general and administrative expense and other operating and non-operating expense less items affecting comparability.

(a) Non-GAAP Measures. Operating cash flow before working capital, capital expenditures, net of noncontrolling interest and free cash flow before working capital as operating cash flow before working capital expenditures, net of noncontrolling interest is defined as capital expenditures less contributions from noncontrolling interest. Free cash flow before working capital is defined as operating cash flow from continuing operations before working capital less capital expenditures, net of noncontrolling interest. These non-GAAP measures are not meant to disassociate those items from management's performance, but rather are meant to provide useful information to investors interested in comparing Occidental's performance between periods. Reported operating cash flow and capital expenditures are considered representative of management's performance over the long term, and operating cash flow from continuing operations before working capital, capital expenditures, net of noncontrolling interest and free cash flow before working capital are not considered to be alternatives to reported operating cash flow and capital expenditures in accordance with GAAP.

| Organic | (B)/(F) | 112 % | 137 % |
| Program Additions | (C)/(F) | 100 % | 115 % |
| - All-In | (E)/(F) | 230 % | 181 % |

Non-GAAP Measures

Finding and development costs (F&D Costs) and reserves replacement ratio are non-GAAP measures that Occidental believes are widely used in our industry, as well as by analysts and investors, to measure and evaluate the cost of replacing annual production and adding proved reserves. Occidental's definitions of these non-GAAP measures may differ from similarly titled measures provided by other companies and as a result may not be comparable.

F&D Costs – All-In is calculated by dividing total costs incurred for the year as defined by GAAP by the sum of proved reserves revisions, improved recovery, extensions and discoveries and purchases of minerals in place for the year. F&D Costs – Organic excludes from F&D Costs – All-In both the property acquisition costs and purchases of minerals in place, and F&D Costs – Program Additions further excludes price and other revisions that are not infills.

Reserves Replacement – All-In is calculated by dividing the sum of proved reserves revisions, improved recovery, extensions and discoveries and purchases and sales of minerals in place for the year by current year production. Reserves Replacement – Organic excludes from Reserves Replacement – All-In purchases and sales of minerals in place for the year. Reserves Replacement – Program Additions further excludes price and other revisions that are not infills.
